

## Riverbend Resort

### Accessibility Report

Riverbend Resort, Parksville

Contact : Bill – General Manager

Report Date : December 8, 2023

By : Ralph Tietjen

### Property Overview

Riverbend Resort is mainly an RV and camping facility, however they offer cottages as well. The main Lodge building has two steps up preventing wheelchair access to the office and amenities, but a ramp is available on request.

Two cabins could be considered accessible depending on the needs of the guest. Cabins #5 & 8 are two-bedroom log cabins with exterior door width of 33 inches and interior door width of 27 inches. The bed would have to be moved to allow for a single-side approach in a wheelchair and space could be tight until the door is closed.

The bathroom has a low bathtub with two grab bars but only a fixed showerhead. There are a couple steps up to the entrance door, but a ramp is available on request.
